# Why should you choose Acumera?

## The #1 Security, Visibility, & Compliance Provider

**Acumera®**

| TOP 5 REASONS | |
|---|---|
| **Managed Platform Approach** | • This approach includes the core platform (Secure Edge Networking Platform), the managed service (support center), and the security controls (threat monitoring, vulnerability scanning, etc.). It simplifies management and reduces complexity, making it easier for technicians to understand and work with the system.<br>• Puts cloud-based apps at your fingertips for easy access to monitoring, management, compliance, and analytics tools |
| **Proactive Monitoring** | • Acumera provides continuous monitoring of network activity. Proactive monitoring helps identify potential problems before they occur or escalate, minimizing downtime and troubleshooting for everyone.<br>• Meets current and future network needs through strong hardware and an advanced firewall and application platform |
| **Network Familiarity** | • 20+ years of proven expertise in the industry<br>• Gilbarco Veeder-Root and Verifone certified Managed Network Service Provider (MNSP)<br>• Selected by Gilbarco Veeder-Root for Passport® containerization and edge computing to improve uptime and resiliency |
| **US-Based 24x7 Support** | • We're here for YOU! Click here to access our customer support center!<br>• This proactive support increases uptime and payment reliability<br>• And, the sales team is responsive, so that makes service requests quicker! |
| **PCI Compliant Service Provider** | • Secures and segments networks and protects POS systems to safeguard sensitive data and simplify PCI compliance<br>• Acumera's network solutions meet Payment Card Industry Data Security Standard (PCI DSS) standards to protect cardholder data and simplify compliance for technicians and sites. As a Level 1 PCI-certified provider and member of the PCI Security Standards Council, we process over 6 million card transactions each year. To keep this status, we complete annual assessments by a Qualified Security Assessor (QSA) and quarterly scans by an Approved Scanning Vendor (ASV). |
| **In summary, Acumera is the safest choice for connectivity, visibility, security, & compliance.** | |

## About Acumera

For over 2 decades, at Acumera, we have led the way in Software-as-a-Service (SaaS) solutions. Our commitment to innovation, seamless connectivity, robust cybersecurity, and an enhanced consumer experience has propelled our progress in edge computing, secure edge networking, network operations, visualization, and security for global multi-site operators.

*"They are able to alleviate much of the compliance burden through their PCI tools and an Attestation of Compliance with a scope that meets our needs."*
